

8400 West; 5400 South to 3500 South

Project Description: **Pavement preservation and safety improvements**

To prolong the life of the roadway and also to improve the ride for motorists, UDOT plans to repave 8400 West in this area. Crews will grind off several inches off the top of the existing pavement prior to laying the new asphalt. In addition to the roadway work, required safety improvements will be made, such as new guardrail and reconstructed pedestrian access ramps.

Total Project Budget: **\$3.9 million (current cost estimate)**

Anticipated Schedule: **Construction will begin in mid May and continue through mid July 2006.**

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
